

Report number: **70/2016**

Date of issue: **2016-09-16**

Subject: **Information on purchasing electricity from the ZE PAK S.A.**

Contents of the report:

The Management Board of Centrum Nowoczesnych Technologii S.A. based in Sosnowiec (hereinafter: the "CNT", "Issuer") announces that on 16 September 2016 the Issuer was informed about signing another contract for the supply of electricity by ZE PAK S.A. based in Konin (the "Seller"), concluded under the framework agreement with the Issuer's subsidiary, i.e. GET EnTra Sp. o.o. (the "Company"). Therefore, the estimated total value of contracts to purchase electricity in the last 12 months, with delivery dates in the period from 1 January 2016 to 31 December 2016 and from 1 January 2017 until 31 December 2017 amounts to approx. PLN 94 million.

The agreement of the highest value within the aforementioned period is the agreement concluded on 9 June 2016 with the value of PLN 26 million with a date of supply of energy in the period from 1 January 2017 until 31 December 2017. Protection of the Seller's receivables under the aforementioned agreements represent an irrevocable and unconditional bank guarantee or advance payments made to the account of ZE PAK S.A.

The agreement does not provide for contractual penalties.

Other terms of the agreement do not differ significantly from the commonly used terms and market standards applicable to such agreements and transactions.

At the same time, the Issuer explains that the current commercial activity of GET EnTra Sp. o.o. is run through the Polish Power Exchange S.A. and through bilateral transactions mainly on the basis of framework agreements. The turnover generated from the beginning of 2016 under the current framework agreement between the Company and ZE PAK S.A. accounts for approx. 14% of the total turnover of electricity trading carried out by the Company.
